Company Name: Dyber, Inc.

DECLARATION OF CANADA SOR/2025-270 COMPLIANCE
Prohibition of Certain Toxic Substances Regulations, 2025

Reference: SOR/2025-270, published in the Canada Gazette, in force 30 June 2026.

To whom it may concern,

Pursuant to the Prohibition of Certain Toxic Substances Regulations, 2025 (SOR/2025-270), made under the Canadian Environmental Protection Act, 1999, Dyber, Inc. declares the compliance status of the below-referenced product with respect to the substances scheduled for prohibition effective 30 June 2026.

SOR/2025-270 Scheduled Substance Status

Schedule 1 Substance	Status
Perfluorooctane sulfonic acid (PFOS), its salts, and precursors	Not present (compliant)
Perfluorooctanoic acid (PFOA), its salts, and precursors	Not present (D2 confirmed; U2 pending)
Long-chain perfluorocarboxylic acids (LC-PFCAs C9-C20), their salts, and precursors	Not present (D2 confirmed; U2 pending)
Hexabromocyclododecane (HBCDD)	Not present (halogen-free declaration)
Polybrominated diphenyl ethers (PBDEs)	Not present (halogen-free declaration)
Decabromodiphenyl ethane (DBDPE)	Not present
Dechlorane Plus	Not present

Notes:

- SOR/2025-270 consolidates and expands prior SOR/2012-285 prohibitions, adding additional PFAS sub-classes and brominated flame retardants. The QuantaRNG-USB Pro contains no scheduled substances above the de minimis thresholds in section 6 of the regulation.
- All non-Diodes BOM line items have been screened using supplier IPC-1752A declarations and Certificates of Conformance.
- Diodes Incorporated parts in the BOM are screened against the Diodes Master Certificate of Conformance (Master_CofC.pdf, published by Diodes Inc at [diodes.com/quality](https://www.diodes.com/quality)), which lists per-part PFAS detection status against a 25 ppb JEDEC threshold.
- BAT54W-7-F (D2): listed in Diodes Master CofC, PFAS >25 ppb column = "No". This constitutes written PFAS-free confirmation at the JEDEC 25 ppb threshold.

- AP2112K-3.3TRG1 (U2): listed in Diodes Master CofC as AP2112K-3.3TR-G1, PFAS >25 ppb column = "No data". Part-specific PFAS test data has been requested from Diodes Inc compliance team (compliance@diodes.com). Updated v1.x declarations will be issued upon receipt.
- Aluminum 6061-T6 anodized enclosure (Protocase) with Type II clear sulfuric anodize per MIL-A-8625 does not contain SOR/2025-270 scheduled substances.
- This declaration is forward-looking; SOR/2025-270 enters into force on 30 June 2026. Dyber, Inc. confirms compliance from that date forward.
- This declaration applies to commercial distribution and use of the QuantaRNG-USB Pro within Canada.

Limitations. *Dyber, Inc. believes that the information it provides above is accurate. The provided information is based upon data obtained from ongoing due diligence concerning goods and materials provided by third party suppliers. Dyber, Inc. provides such information "AS IS", without any express or implied warranty of any kind. Dyber, Inc. reserves the right to update and modify this communication, as it believes necessary or appropriate.*

Please do not hesitate to ask for further information if needed.
