DECLARATION OF EU DEFORESTATION REGULATION COMPLIANCE

Regulation (EU) 2023/1115 on Deforestation-Free Products, applicable from 30 December 2026

Reference: Regulation (EU) 2023/1115 of the European Parliament and of the Council of 31 May 2023, as amended.

To whom it may concern,

In accordance with Regulation (EU) 2023/1115 on the making available on the Union market and the export from the Union of certain commodities and products associated with deforestation and forest degradation (EU Deforestation Regulation, EUDR), Dyber, Inc. provides this declaration concerning the QuantaRNG-USB Pro and its associated packaging.

EUDR Scope Analysis

The EUDR applies to seven commodities (cattle, cocoa, coffee, palm oil, rubber, soya, wood) and to relevant products listed in Annex I containing or made using these commodities. Dyber, Inc. has assessed the QuantaRNG-USB Pro against each EUDR commodity:

EUDR Commodity	Present in Product?	Present in Packaging?	DDS Required?
Cattle (incl. leather)	No	No	No
Cocoa	No	No	No
Coffee	No	No	No
Palm oil and derivatives	No	No	No
Rubber (incl. natural rubber)	No	No	No
Soya	No	No	No
Wood (incl. timber, pulp, paper, cardboard)	No	YES - paper and cardboard packaging	YES (forward-looking)

Product Material Composition

The QuantaRNG-USB Pro itself contains no EUDR-regulated commodities. The bill of materials consists of: silicon, copper, iron, nickel, tin, silver, gold, palladium, aluminum (in IC die metallization and in the Protocase 6061-T6 enclosure), mold compound (epoxy with silica filler), FR4 epoxy laminate, barium titanate ceramic, ruthenium oxide thick film, and SAC305 lead-free solder. None of these materials are derived from cattle, cocoa, coffee, palm oil, rubber, soya, or wood.

Packaging Material Composition (in EUDR scope)

The product packaging includes wood-derived materials (cardboard outer carton, folding boxboard unit box, paper documentation insert). These materials fall within EUDR Annex I and require:

- A Due Diligence Statement (DDS) submitted to the EU Information System under Article 4.
- Geolocation coordinates of the plots of land where the wood was produced, per Article 9(1)(d).
- Confirmation that the wood is deforestation-free (produced on land not subject to deforestation after 31 December 2020) and produced in accordance with the relevant legislation of the country of production.
- Risk assessment and risk mitigation measures per Articles 10 and 11.

Status of EUDR Compliance for Packaging

This is a forward-looking declaration. Packaging supplier selection is not yet finalized. Upon supplier selection, Dyber, Inc. will:

- Require all paper and cardboard packaging suppliers to provide FSC certification (Forest Stewardship Council) or PEFC certification (Programme for the Endorsement of Forest Certification) along with geolocation data for the plots of land where the source wood was harvested.
- Submit a Due Diligence Statement to the EU Information System prior to first placing the product on the EU market.
- Maintain records as required by Article 32 for at least 5 years.
- Issue an updated declaration with specific supplier DDS reference numbers prior to first EU shipment.

Dyber, Inc. acknowledges that as a non-SME operator placing products on the EU market, full EUDR compliance is mandatory from 30 December 2026. This declaration constitutes our forward-looking commitment to full compliance from that date forward.

Limitations. *Dyber, Inc. believes that the information it provides above is accurate. The provided information is based upon data obtained from ongoing due diligence concerning goods and materials provided by third party suppliers. Dyber, Inc. provides such information "AS IS", without any express or implied warranty of any kind. Dyber, Inc. reserves the right to update and modify this communication, as it believes necessary or appropriate.*

Please do not hesitate to ask for further information if needed.
